

## EASY NETWORKX WIRELESS KEYPAD SYSTEM

**NET-DKPAK & NET-PDKPAK**

**Trilogy Networkx Wireless Keypads and NetPanel combine to provide the ideal wireless keypad solution for use with mag locks, strikes and electrified exit devices in a smart access system** with advanced features & functions, like automatic schedules, event logs and support for 2000 doors and 5000 existing Prox. ID Cards/Badges. The Networkx Panel communicates via a Networkx Gateway networked to any Windows-based PC. Networkx keypads seamlessly share one common database hosted on free Alarm Lock free software (along with Networkx locks and standalone Trilogys too.). This cost effective system is very scalable, and up to 63 NetPanels,

controlling up to 126 Network Keypads (or Wiegand devices), can communicate to as little as one Alarm Lock Gateway. Two starter kits are available, NET-DKPAK & NET-PDKPAK, each with a controller and keypad (Digital PIN or Prox, respectively). Additional keypads and NetPanels may also be purchased individually.

### Advantages

- **Wireless Keypad solution** - networked versions of popular Trilogy DK/PDK3000 Keypads
- **Ideal for use with strikes, mags, electrified exit devices**
- 5000 users with 3-6 digit PINs or HID® ID cards
- **Save manpower - Bidirectional 128 AES encrypted network communications** updates, users, time-schedules and audit trail queries — without ever going to the keypads

**Versatile for indoors and outside; ideal for education, healthcare, government, airports, courts, municipalities, & retail**

- **Familiar Trilogy operation,** programming, software and ruggedness
- **NetPanel Controller supports 2 Networkx keypads and/or 2 Wiegand output readers /devices**
- Key features: Global lockdown and passage from keypad or PC, schedules, 35K event log, door position status indicator, request-to-exit, door ajar/kick-in, remote release options

### Features

- Networkx NetPanel supports up to 2 Networkx wireless keypads and/or Wiegand-output readers and communicates wirelessly via Ethernet or 802.11B/G for a comprehensive wireless networked door access control system, eliminating door-to-door programming and audit trail retrieval and providing all standalone Trilogy lock functionality plus new network-wide global emergency lockdown/unlock commands
- Networkx Keypads support up to 5000 users with 3-6 digit numeric PIN codes and NETPDK-Series also support prox ID card users (virtually all HID format proximity technology ID cards, fobs, credentials.)
- System-wide free-passage enable or disable, can be activated from the keypad or the Networkx PC
- On demand, in seconds, wirelessly change keypad users, schedules, features or retrieve 35,000 events from any networked PC.
- Ideal for use with mag locks, strikes and electrified exit /panic devices (EL-devices/ electrified latch retraction devices.)
- Free Alarm Lock DL-WINDOWS software doesn't require a dedicated computer or a special computer network or costly server software licenses, it simply runs as a secure Microsoft Windows-based application, on any computer system (as basic as a desktop or laptop PC), a wired or wireless router, and a gateway module or on an internal LAN with static IP address (recommended).
- Up to 2000 NetPanels can be used per account to further expand system capabilities.
